NETWORKING and DEVELOPMENT

The Exhibition

Materials, products and applications are displayed throughout the conference venue. Support posters and brochures are available. Members and partners contribute product samples to hold and examine. Equipment manufacturers and service providers are available to answer your questions.

The Conference Sessions

Speakers include commercial leaders, NGOs, government representatives, researchers, material and product developers as well as collaborators from support industries. Delegates are invited to ask questions and clarify points. The conference is designed to provide an open discussion of the current events in the tyre recycling industries.

The Spotlight

The Spotlight is a highlight that has been added to focus on innovative new materials, products and applications that are still being developed for commercialisation. Speakers will have 10 – 15 minutes to describe the unique features of their designs and how they will contribute to market growth.

Company Matchmaking

The 2020 programme offers two Matchmaking opportunities. The first will take place on Wednesday 2 September during the session on **Opportunities**. The second will be part of the Cocktail Reception Thursday 3 September until 20.30. Both events will consist of **working group discussions** in which each pre-registered participant company will have a chance to meet potential partners for technological and commercial cooperation.

Cocktails, Dinner and Lunches

Cocktail receptions, the gala dinner, morning coffee, coffee breaks and lunches are part of the conference package. The Welcome Reception and Gala Dinner offer a pre-conference evening to meet and greet speakers and delegates in an informal atmosphere. Delegates are encouraged to invite a guest to share the Gala evening. Lunches are reserved for speakers, exhibitors and delegates.

The 27th European Conference on tyre recycling

New Market Partnerships After 2020 : *Overcoming the Obstacles*
